COURSEWORK

Courses: Object-Oriented Programming, Selenium With java, Javascript Bootcamp, FrontEndWeb Development(ANGULAR)

SKILLS

Languages: Javascript ,Typescript , CoreJava,HTML,CSS,Node Js (Basic)
Framework: Angular,Rxjs , Bootstrap,Tailwind CSS
Libraries: React JS (Basics) ,Jquery
Tools: Git/GitHub, Webpack, VS Code, IntelliJ /IDEA

PROJECTS

Library Management | *Angular, Typescript, Firebase, APIs , Git,Bootstrap VS Code*   Nov. 2023
- Designed an intuitive user interface allowing librarians to efficiently handle book cataloging, borrower information, and transactional records.
- Leveraged Angular framework to create modular and responsive components, ensuring a seamless user experience
- Developed Angular services to perform CRUD operations on book data, maintaining consistency and integrity in the library database.
- Implemented Angular routing for easy navigation between book listings, detailed views, and the book addition form.
- Successfully delivered a scalable and feature-rich library management system, streamlining library operations and enhancing user satisfaction

Weather APP | *Javascript, HTML/CSS, , API , Git, VS Code*   Oct 2023
- Spearheaded the end-to-end development of a weather application to provide users with real-time weather information.
- Integrated with a weather API to fetch and display accurate and up-to-date weather data for specified locations
- Implemented a responsive and visually appealing user interface using HTML and CSS, ensuring a seamless experience across various devices.
- Implemented asynchronous JavaScript (AJAX) requests to handle data retrieval and update the application in real-time

Portfolio | *Javascript, Html ,Css, Git,*   Sep. 2023
- *Designed and developed a personalized portfolio website showcasing my skills, projects, and achievements.* r
- Utilized HTML, CSS, and JavaScript to craft a visually appealing and responsive user interface, ensuring a seamless experience across various devices
- Successfully launched a professional portfolio website that effectively communicates my skills, experience, and project achievements

ToDoList — Quiz — QR code Generator | *Javascript, Html ,Css, Git,*   Sep. 2023

- *Create a simple Quiz Application using JavaScript that allows users to answer a set of questions*
- Develop a Todo List application using JavaScript that enables users to manage their tasks .Display a list of tasks with checkboxes to mark them as completed .Use local storage to save tasks, ensuring persistence even after page refresh.
- Create a QR Code Generator mini project using JavaScript that allows users to generate QR codes for various purposes .Dynamically generate and display the corresponding QR code based on the user's input

EXPERIENCE

Indium software Inc | *Test Engineer*   Feb. 2022 – Present–fulltime

Work under various domain and various project Ex. Uber EATS (e.com), Uber Rider (Retail)
